

As we discussed, I have helped many of my clients with a dental/vision/hearing plan from Manhattan Life. What I like about this plan is that you can use all your benefits in one category, if you like (like dental or vision or hearing). You can spread out your benefits differently each year, as you need them. For instance, one year you might have a lot of dental work, so you use your benefits for dental work that year. Another year, you might want to split your benefits between dental and vision – so you do that. You use the benefits as you need them – it’s a very flexible plan. Also, you can use the benefit at any provider, there are no networks to stay within. All the details for this plan are listed below in the link. You can enroll directly from this link. Click on “Dental, Vision, Hearing Insurance” for the best option (not DVH Select). I’ve also attached a brochure.

I suggest enrolling in two separate plans as this is less expensive than the family plan.

(Note to Agent – input your own unique quoting & enrollment link above and delete this sentence. Also, use your own client testimonial below and update your name and contact info.)

Please let me know if you have any questions.

Client Testimonial

“I would give higher than 5 Stars if Google would allow. You cannot find a more thorough or more knowledgeable person to handle your Medicare needs. Katie was referred to me through a very reliable source and I am grateful I called her. She was dependable and stayed in touch regularly through my process. She doesn’t disappear after she has you signed up. Once again, you will not be disappointed in the least if you contact her. Best decision I have made in doing this process.” - Marita W.

Thanks,
Katie
